

CULVERT INVENTORY ASSESSMENT (CIA)

KNOW EVERY CULVERT. PLAN ITS FUTURE.

Turn culvert locations, condition and costs into a practical municipal asset-management and funding plan.

EXAMPLE CIA CULVERT-MARKER MAP

MAP IT | INSPECT IT | FORECAST IT | FUND IT

Everything administration needs - in one decision-ready system

A mapped culvert inventory, automated spreadsheet reporting and long-range replacement intelligence.

ACTUAL LOCATIONS

Individual culvert locations displayed as clear markers on a municipal map.

COMPLETE ASSET REGISTER

Size, length, material type, age and the information needed for administration.

CONDITION & INSPECTIONS

Condition rating 1-5 (1 = new), last inspection date and inspector's name.

REPLACEMENT FORECAST

Expected replacement year plus current and future estimated replacement costs.

ANNUAL FUNDING TARGET

Calculate the total amount to set aside annually so replacement funds are ready.

AUTOMATIC REPORTING

After initial setup, maps and spreadsheet reports are automatically generated.

FOR CAOs & ADMINISTRATION: SUPPORT MANDATED ASSET-MANAGEMENT GOALS

COUNCIL-READY

Evidence for priorities

BUDGET-READY

Defensible capital planning

FUTURE-READY

Records preserved through staff change

A simple start. Long-term municipal value.

1

PROVIDE

Administration and the PW foreman supply baseline data

2

VERIFY

ConX structures and completes the CIA database

3

USE

Automatic maps, reports and funding forecasts

BRING YOUR CULVERTS INTO FOCUS.

Ask ConX Wireless how to sign up for your Culvert Inventory Assessment.
