Digital Map Marking  
Hazard & Asset GIS  
Data Collection System

**ROAD MAINTENANCE FLEET MANAGEMENT**

**CELLULAR-BASED DATA COMMUNICATION**  
CONTINUED OPERATION OUTSIDE CELLULAR COVERAGE

**COST EFFECTIVE • AUTOMATED OPERATION • PRECISE DATA • EASY TO USE**

**SYSTEM DESIGNED FOR THE PUBLIC WORKS SECTOR**

## SYSTEM BENEFITS

- Digital mapping at a fraction of GIS software
- Save time finding frozen culverts, etc.
- Avoid spreading noxious weeds with mowers
- Eliminate spraying in sensitive areas
- Better planning of gravel distribution
- Easy transfer between vehicles

## FEATURES

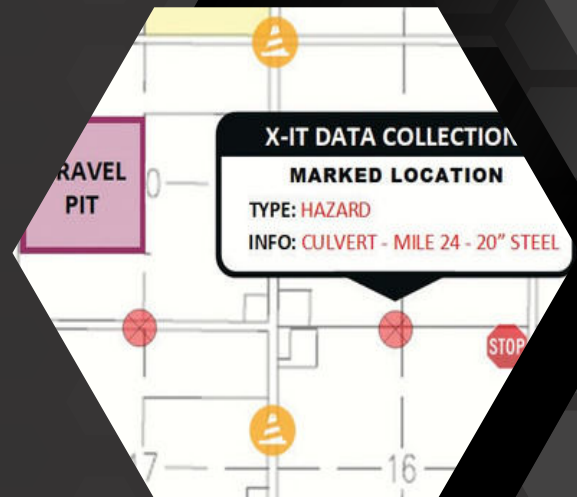

- Digitally map hazards and landmarks
- See all landmarks with custom icons
- Add new landmarks “on the fly”
- Create PDF printable maps with landmarks
- Create “needs work” sections (e.g. Gravel Dump)
- Audible “Now approaching location” alert with all capable systems

## ADMINISTRATION AND ASSET MANAGEMENT DATABASE

Signs, Curb Stops, Water Valves, Oil Wells, and more

## OPERATIONAL INTERACTION

Culverts, Manholes, Washouts, Gravel Mapping, and more

**Map Important Assets  
and Locations**
