

# SMART

Snow Site Monitoring,  
Access, Reporting & Tracking

## REPORTS 3RD-PARTY SNOW-DUMP SITE USAGE FOR BILLING PURPOSES

DEVELOPED FOR MUNICIPAL-OWNED, MUNICIPAL-CONTRACTED & PRIVATE-OPERATOR HAULAGE TRUCKS

## COST EFFECTIVE SOLUTION FOR SNOW HAULING

### How It All Works:

- Small long-life battery-operated device mounted on vehicle (no wiring needed)
- Upon vehicle entering site perimeter, event details are wirelessly reported and logged on server software in real-time with no need for any human interaction
- Customizable reports for historical and invoicing purposes can be created and exported

## KEY BENEFITS

- Accurate disposal activity data of both commercial and city-owned vehicles
- Eliminates opportunities of disposal omission reporting
- Multi-site capability for permanent and temporary sites
- Site operates unattended
- 24/7 Seamless operation
- Operator privacy maintained - No GPS route tracking
- Easy on-dash vehicle hardware placement (enclosure option)
- Ability to charge:
  - Annual Site Access permit fee - for example: \$25
  - Per visit fee - for example: \$X, \$Y or \$Z - based on load/vehicle size

## Turn-Key Operation & Infrastructure-Free

- No need for investment in gate infrastructure
- No on-site power required
- No on-site equipment used
- No driver interaction required (stays in vehicle)
- No drive-in delays, perform dump operation quickly

## Reports

### Site Disposal activity by:

- Customized date-range
- Time of day (event history)
- Disposal site(s)
- Company
- Vehicle ID
- Vehicle load size

### Financial

- Charge different disposal rates by vehicle load, # visits/volume usage, operator
- Generate Billing Reports - exportable as pdf, Excel or csv for invoice creation
- Create accounts in both pre-pay and post-pay status
- Operator on-line pre pay account top-up by credit and debit card
- Operator on-line post-pay account payments by credit and debit card
- Operator accessible usage/billing reports (detailed)
